

Canadian Paramedicine Writer's Check List

2016

GENERAL INFORMATION

Canadian Paramedicine provides emerging news about trends, research, politics and association information affecting Paramedicine in Canada and around the world. Canadian Paramedicine provides a platform for the exchange of ideas and innovative programs. Issues are published both in hard copy magazine format and electronically for digital subscribers. Canadian Paramedicine publishes 6 issues annually in addition to targeted supplemental issues. Issues are traditionally 52-56 pages in length. Canadian Paramedicine is also a trusted source for up to the minute information and emerging news on multiple social media platforms. The following check list has been created as a final inventory on items required by the editor prior to publishing.

Please ensure that you have the following:

- Article Title
- Author's names (Title, First, Last)
- Author's biographies (~50 words)
- Author's social media information (Twitter handle, facebook page, website etc)
- Author's profile photographs (TIFF, EPS, High Resolution JPEG, BMP or PDF) (300 dpi at actual size)
- Charts, graphs, images and logos (TIFF, EPS, High Resolution JPEG, BMP or PDF) (300 dpi at actual size)
- Article Length ~1500 words (plus references)
- Article is referenced in Vancouver Style
- Author's email and mailing address (we'll send copies to each author)

*If you are a regular contributing writer, we will have your biography and profile photograph on file. Let us know if you want us to update either at any time.

Submit your final article and associated attachments to the following addresses:

to: thecreativedirector@canadianparamedicine.ca

cc: editor@canadianparamedicine.ca.

cc: your peer editor !!!

If you have published this article in another publication prior to submitting to Canadian Paramedicine, please be sure to let us know.
